

11-18-16

Monday	Good Morning! The children are working hard on measurement in math. They are working with rulers, teddy bears, cubes and scales. I also introduced a ten frame. We will spend a lot of time on ten frames.
Tuesday	I was not in school today. The children had a great day with the substitute.
Wednesday	I was out again today. This was my last conference dealing with our new curriculum that we are piloting. Mrs. Lee and I are very excited about what we learned and anxious to implement several pieces right away.
Thursday	It was so good to be back in the classroom. We did not read a story today or do our normal writing. We spent a lot of time talking about the upcoming feast and the children signed up for different roles to help with the feast. The children are making the menu, decorating, setting tables, cleaning up and making invitations for some special guests. The children are planning and making the feast their own.
Friday	We started with pictures this morning. We did not read a story again today. The children got into their groups for the feast and planned their next steps. Have a great weekend and don't forget to send in those canned goods.
