

10-21-16

Happy Friday! Have a great weekend. We have a field trip next Friday. I hope you can join us when we walk to the Ashaway fire station.

Monday	We are focusing on geometric shapes this week. We had Ms. Carpenter read the story called Abuela in our Spanish class today. The children learned that Abuela means grandmother in Spanish. During our ELA block, we read The Big Pumpkin and the children wrote about how bear could solve his problem. The children acted out The Little Old Lady Who were Not Afraid of Anything this afternoon.
Tuesday	What a wonderful story we read today. It is one of my favorites. The children heard The Magic Pumpkin and wrote about the main character Mr. Squiggs. We are working hard on geometric shapes.
Wednesday	We have so many great fiction stories about pumpkins and today we read Pumpkin Jack and wrote about their favorite part. In science we started learning about the 5 senses. We are also focusing on the trees outside of our classroom.
Thursday	The children are doing a great job in math with the geometric shapes. Very proud of how they are doing with these hard shapes. I also introduced listening today. The children love the listening center. We read Little Boo and wrote about their favorite part.
Friday	Happy Friday! Today we read Pumpkin Town and wrote about what would happen next. In science, we are learning about the parts of a tree. I hope to see all of you tonight at the Fall Spooktacular.

Upcoming Events
